

Haywood High School
Instructional Information for ELA

Dear students and families:

We hope that you and your loved ones are safe and well. We are here to support the community through this unprecedented time, and one way we can provide that support is by providing opportunities to engage our students with high quality instructional support materials to sharpen their skills while they are away.

The information below provides an overview of work through April 24, 2020, as well as supporting information that families can use to support children in completing the assignments. For the next several weeks, students have several assignments to work on in ELA and math, and some might require the assistance of an adult or older sibling.

The work reviews concepts and learning we have worked on in class. As the week progresses, and as we get accustomed to this new structure and routine, you will have opportunities to connect with your teachers to support your learning. Teachers will be available to provide instructional feedback, not direct instruction.

Included in the resources are two units per grade:

Grades 9 and 10

Unit 1: The History of Yellowstone

Unit 2: A Night Battle, Over a Week Since

Grade 11:

Unit 1: Walden: Solitude

Unit 2: Tinker vs Des Moines

Teachers will be available for feedback over Unit 1 on **April 15, 2020** by Zoom. You will need to download the Zoom app or follow the link to Zoom. The access code for each grade level is below.
