News from the Principal

As we complete this final month of 2019 and the second quarter of this school year, there are a lot of changes you should notice. Students will mature through this holiday season.

The newness of 2020 will be arriving, but the familiarity of 2019 will carry us all through the school year.

I challenge all to engage in reading books, figure out which author is your favorite, and complete **iReady math lessons** throughout the break!

Keep your minds moving! Find the fun in learning and achieving!

I look forward to hearing how you moved your mind during the winter break.
