Student notes for: HISTORY OF YELLOWSTONE PARK

Day: 4

1. Based on the context clues provided, what can you infer the word “ethnography” means in the second paragraph on page 13?

2. According to the text, Yellowstone Park contains “natural and cultural resources.” What specific details from the text suggest what “cultural resources” the park contains?

3. According to the text, “people continue to affect and be affected by places that have been relatively protected from human impacts.” What details from the text suggest how this statement applies to Yellowstone Park?

4. According to page 28 of the text, why did the “national park idea” become so important by the end of the 1800s? Be sure to use specific details from the text.

5. According to the final paragraph on page 28, why has the idea of “preservation” spread around the world? Be sure to use specific details from the text.
